

# Basic L<sup>A</sup>T<sub>E</sub>X Formatting

Ryan Steiger

## 1 Introduction

Basic formatting tags in L<sup>A</sup>T<sub>E</sub>X.

### 1.1 Text formatting

All the things you want to do, and sometimes should ... emphasis on SOMETIMES.

**Bold Formatting** is only between the curly braces.

*Italics Formatting*

Unerline Formatting

### 1.2 Paragraph Formatting

New paragraphs are automatically indented.

But sometimes you don't want them to be.

## 2 Oddities

Strange things I noticed.

### 2.1 Misquotes

This is how I would normaly type 'single' and "double" quotes. Doesn't it look odd?

Use that *other* quote key you've probably never used before to make it better See my new 'single' quotes, and "double" quotes? Ahh, that's better.

## 3 Conclusion

These are just a few of the basic elements in a L<sup>A</sup>T<sub>E</sub>Xfile. We'll look at many more throughout the course.
